

"Stationary" HIGH PRESSURE WASHERS & CLEANERS

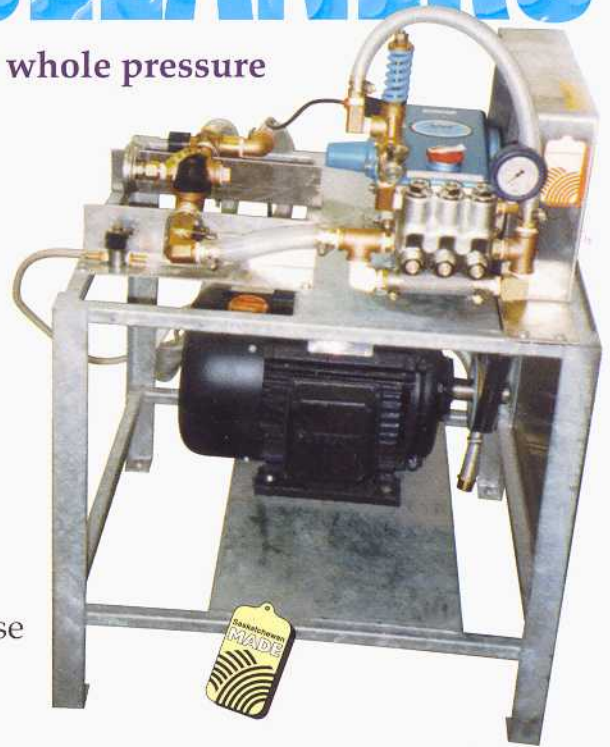

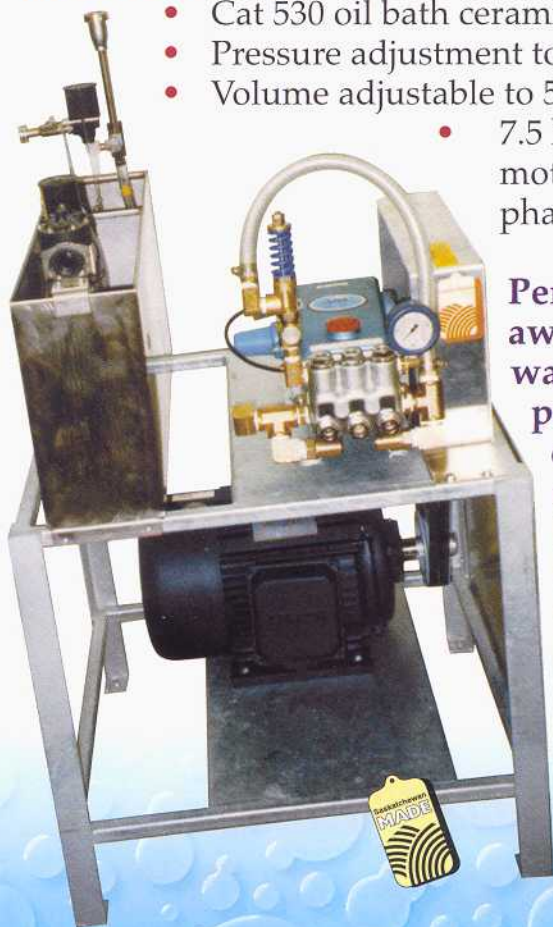

Ideal when you don't want the bother of taking the whole pressure cleaner to the wash area, just the gun and hose.

MODEL 310S50

- Cat 310 oil bathed ceramic plunger pump
- Pressure adjustable to 2000 p.s.i.
- Volume adjustable to 4 g.p.m.
- 5 h.p. T.E.F.C. three phase motor. (Optional single phase available)

MODEL 530S75

- Cat 530 oil bath ceramic plunger pump
- Pressure adjustment to 2150 p.s.i.
- Volume adjustable to 5 g.p.m.
- 7.5 h.p. T.E.F.C. three phase motor. (Optional single phase available)

Permanently locate this state-of-the-art cleaning system away from the washing area. Attach it to hydro power, water (hot or cold), and run a high pressure line from the pump to washing areas desired. Run low voltage control wires to each wash station and your system is ready to blast away.

Hose and gun are simply plugged into any drop station desired, turn on low voltage switch to either soap or rinse. Additional chemical selections available as an option.

PANTHER

WASH EQUIPMENT LTD.

#4 - 210 48th Street East, Saskatoon, Saskatchewan S7K 6A4
